**Huron Solid Waste Department Appliance Recycling Procedures  
To Comply with the State of South Dakota Energy Efficient  
Appliance Rebate Program**

**Huron, South Dakota:** The Huron Solid Waste Department would like to remind residents in Huron and Beadle County, the Rubble Site/Transfer Station does recycle refrigerant and scrap appliance for beneficial reuse.

One of the options to comply with the eligibility requirements for the State of South Dakota Energy Efficient Appliance Rebate Program at for refrigerators and freezers is that the rebate application must include a signature from a recycler or retailer that the appliance will be recycled or disposed of in accordance with state law. Residents should bring their appliance rebate application form with them if they choose to use the Rubble Site/Transfer Station for recycling services. Rebate application forms are available from appliance retailers or on the state's website at: <http://appliance rebate.sd.gov>. After load inspection to verify the type of appliance, a scale operator employee will be able to sign the recycler's affidavit section of the application form.

Residents who bring their appliance to the Rubble Site/Transfer Station will be charged for the incoming load which is \$8 freon/capacitor removal and \$0.075 per pound per unit charge. If you bring your appliance to us with the freon and capacitor already removed you must have proof of the removal by a certified technician. You will also need to tarp your load to comply with city ordinance secured load requirements to prevent litter.

General information regarding the Rubble Site/Transfer Station, including location, hours of operation, rates, and materials accepted are located on the City's website at: <http://www.huronsd.com/citydepartments/solidwaste.htm>.
